

STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 12 JANUARY 1983

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred
During the Preceding Week:

a. LIMS

(1) OL and ODP staffers are currently heavily involved in evaluating proposal responses to the development contract RFP, from both technical and cost standpoints. These evaluations are to be completed by 21 January.

(2) A concentrated effort is underway to sift through LIs, SIs, etc., and identify, in particular, those internal approvals that may impact development of data flow diagrams and other detailed requirements. It is likely that components will be contacted soon to review and verify the need to continue or cancel these approvals in the automated system.

(3) On 11 January the Plans and Programs Staff met with members of the LIMS/Systems Development Group for preliminary discussions on detailed requirements definitions for the requisition module. As the link to the customer environment the requisition module is believed to be a key element in the LIMS system.

b. Regulations Revisions

STAT
[Redacted] Nonofficial Publications and Oral Presentations by Employees and Former Employees -- Concurred, but made several recommendations to improve the regulation. (Intra-OL concurrence by OL/SS.)

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 3 to 7 January 1983

I. Major Activities During the Past Week:

A. Support to OL:

FARS (Federal Automated Requisitioning System). Personnel from Computer Systems Support Corporation, the hardware maintenance contractor for Data General minicomputer, identified the need to replace some minor hardware items as well as one of the four disk packs for the FARS system. None of these items are covered by the service contract. Personnel in the Interdepartmental Support Branch, SD/OL, are looking into various sources and methods to either repair or replace these items. The FARS system continues to function properly in the meanwhile. (U)

STAT

Due to changes in personnel in the [redacted] Computer Center some JCL and procedures for the FARS system were modified to expedite the processing of the punched card output. (U)

STAT

On 7 January personnel from Data General were on site for software assistance on the FARS system. [redacted] (U)

STAT
SIAI

CRAMS (Agency Space in the Metropolitan Area). Provided a method of copying CRAMS INFO Data Files to [redacted], Building Planning Staff, OL, from [redacted], Logistics Services Division, OL, for his reporting requirements. Also assisted Ms. [redacted] with a date sort problem relating to the CRAMS INFO files. [redacted] (U)

STAT

STAT

AVRS (Agency Vehicles Records System). Personnel in the Operations Support Branch, SD/OL, experienced problems updating the current NIPS data base for vehicles. The data base was successfully restored and updated. [redacted] (U)

STAT

ACF2 (Access Control Facility 2). The ACF2 rule data base for Logistics was updated to reflect changes in personnel and data access requirements. [redacted] (U)

STAT

II. General Items:
